Industrial-Organizational Psychology
Work Stress and Recovery (WSR) Lab
Advisor: Charles Calderwood

B.S. in Psychology, Virginia Polytechnic Institute and State University May 2023
Minor in Economics and Adaptive Brain & Behavior | GPA: 3.86 | Major GPA: 3.92

Research and Teaching Experience/Interests

Graduate Assistant, *Virginia Polytechnic Institute and State University* Aug. 2024 - Current
Office of Organizational Excellence

- Provide consulting and support services to campus leaders to drive meaningful change and achieve significant progress toward strategic goals.
- Collaborate on the Civil Rights Compliance and Prevention Education (CRCPE) Office's organizational assessment, analyzing the impact of new federal Title IX and civil rights policies on institutional structures and stakeholder communication.
- Manage and analyze confidential organizational data, ensuring compliance with privacy and reporting standards.
- Support change management planning, including identifying barriers to adoption, designing stakeholder engagement strategies, and developing metrics to assess change readiness and progress.
- Develop strategic recommendations for leadership by synthesizing data, benchmarking best practices, and visualizing findings through executive reports and presentations.
- Contribute to multiple campus-wide projects focused on organizational design, performance improvement, and strategic communication.

Graduate Research Assistant, *Virginia Polytechnic Institute and State University* May 2024 – Aug. 2024
Department of Psychology
Work Stress and Recovery (WSR) Lab Faculty
Director: Charles Calderwood

- Finished data collection and helped prepare and merge data for data analysis
- Recruited and screened participants for the Commuting Experiences Study which aims to understand how different experiences at work and home influence how employees drive on a day-to-day basis
- Assisted in data preparation and analysis by organizing Actigraph data and merging clinical reports into the SPSS program for a study on work stress and commute

Graduate Teaching Assistant, *Virginia Polytechnic Institute and State University* Aug. 2023 - May 2024

Department of Psychology
Introductory Psychology (PSYC1004)

- Attended lectures and assisted the course instructor in delivering content to undergraduate students
- Led review sessions and provided guidance and support to students during office hours or via email
- Helped transition and transform the course to an online format and collaborated closely with the course instructor and other teaching assistants to prepare online course materials

Undergrad. Research Assistant, *Virginia Polytechnic Institute and State University* Aug. 2022 - May 2023

Department of Psychology
Work Stress and Recovery (WSR) Lab Faculty
Director: Charles Calderwood

- Recruited and screened participants for the Commuting Experiences Study which aims to understand how different experiences at work and home influence how employees drive on a day-to-day bases
- Assisted in data preparation and analysis by organizing Actigraph data and merging clinical reports into the SPSS program for a study on work stress and commute
- Contributed to managing and reviewing meta-analysis research and references for the Commuting Experiences Study

Undergrad. Research Assistant, *Virginia Polytechnic Institute and State University* Jan. - May 2022

Department of Psychology
Affective Neurodynamics and Development (AND) Lab Faculty
Director: Tae-Ho Lee

- Worked in an fMRI lab to collect data on emotion regulation, aggression, and prosocial behavior
- Collected BioPac data from participants related to the development and changes of emotions and thoughts throughout the lifespan
- Reviewed journal articles related to emotion regulation, brain function and development in preadolescents, and aggression and risk-taking behavior across adolescence

Research Interests: social media use, microbreaks, at-work recovery, work stress, job satisfaction, burnout, work-nonwork balance, social media content creation, motivation
